PROFESSIONAL EXPERIENCE

Marketing & Business Operations trainee,Laxmipati Group,surat

July 2025 - Present

- Working on digital advertising research and campaign structuring.
- Analyzed customer targeting, creatives, and product positioning.
- Supported daily operations by coordinating team schedules and resources.
- Collaborated with departments to streamline communication and workflow processes.

Intern, marketplace india, mumbai

Jan 2025 - April 2025

- Built a multi-platform quality inspection system (web + mobile) for cooperative housing workflows
- Assisted in developing an image-recognition model for defect identification using structured datasets
- Centralized inspection data across multiple cooperative houses into a single system

Wild lotus fashion, bhubaneswar

June 2024 - July 2024

- Analyzed manufacturing processes to identify efficiency improvements and optimize workflows.
- Conducted time studies to assess operations and recommend enhancements.
- Participated in root cause analysis for operational issues, and proposed solutions using kanban.

PROJECT

- Developed an AI-assisted fabric defect detection system on YOLO architecture using image recognition for quality inspection. Enabled automated identification of fabric faults to improve inspection accuracy and reduce manual dependency.
- Built a multi-platform SaaS solution (web + mobile) to digitize and centralize quality inspection workflows. Unified multiple cooperative units under a single system for inspection tracking and data-driven decisions.

EDUCATION

Bachelor of Fashion Technology

National Institute of fashion Technology Bhubaneswar

High schooling and elementary education

Buxi Jagabandhu English Medium School
